Showcase spotlights small business diversity, equity and inclusion

SPRINGFIELD, Virginia – The National Geospatial-Intelligence Agency and the National Security Innovation Network is conducting a virtual Small Business Diversity, Equity, and Inclusion showcase Feb.3. The showcase will feature companies able to develop geospatial-intelligence, or GEOINT, focused solutions supporting NGA's Technology Focus Areas.

"Today we are faced with threats and unprecedented challenges that can disrupt and threaten our way of life," said NGA Chief Transformation Officer for Research Nicole Washington, who will speak at the showcase. "To meet these challenges, we need unprecedented solutions developed by extraordinary teams that look and think differently. We are building these teams that reflect the people we serve."

This program will showcase promising GEOINT startups, a panel discussion and a series of keynote presentations that highlight NGA's desire to support small businesses through enhanced DE&I efforts in the geospatial-intelligence ecosystem.
